FRO Token Instructions

If you want a FRO token simply send @snowfro your LUX address in DM.
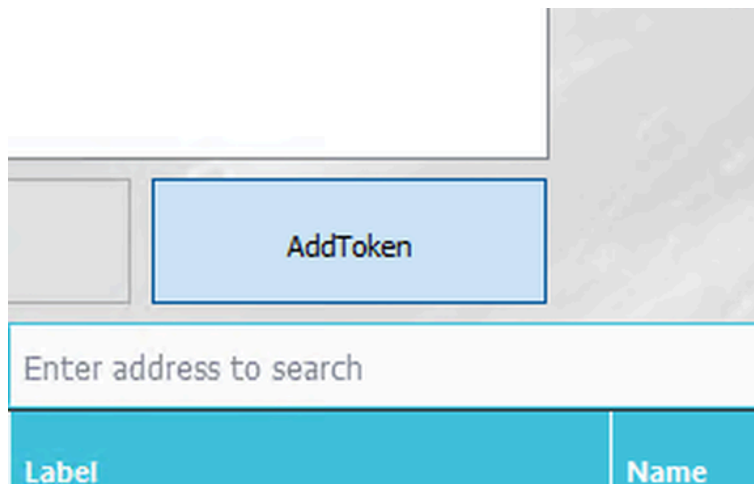

Here is the FRO Token Contract Address:
04159f89d938b5d2de4b67bdbf482f788a97946a

To see your FRO Tokens:

— Click LSR Token Tab at the top of the QT Wallet

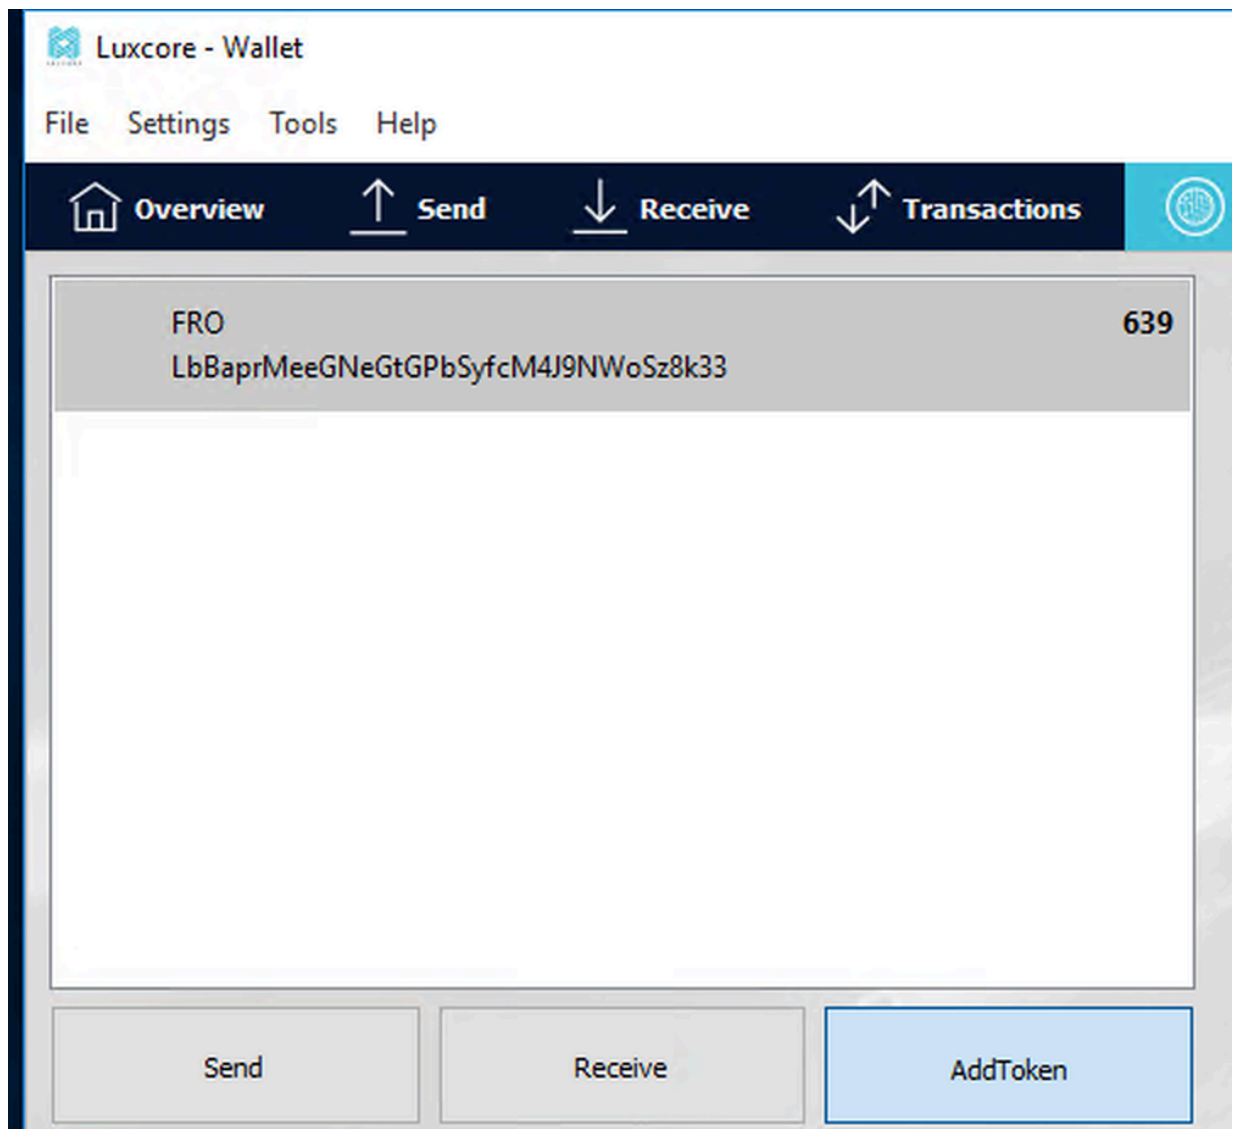

— Click Add Token

— In the top box on the right copy and paste the contract address:
04159f89d938b5d2de4b67bdbf482f788a97946a

— The rest of the fields should be autocompleted with the exception of the last one.
— For the last field select the receiving address for the FRO Token.

Contract Address	04159f89d938b5d2de4b67bdbf482f788a97946a
Token Name	Snowfro's SC DayCommeorative Token
Token Symbol	FRO
Decimals	0
Sender Address	LbBaprMeeGNeGtGPbSyfcM4J9NWoSz8k33 ▼

Once you complete these steps you will see your token balance in the box on the right!

Currently the "SEND" interface for tokens is not functioning properly so if you want to be able to send your token to another address you'll need to interact with the token contract using the Smart Contracts tab.

Once in the Smart Contracts section you'll click the top tab that says "Send To".

Paste the contract address in the Contract Address box.

Below that you will paste the contract ABI found here: http://pasted.co/55c56a03

Copy and paste ONLY the information below where it says ABI, make sure to keep the brackets.

Now click

to save the contract.

To send a token you'll select the transfer() function:

The "address _to" field requires an address that is converted to HEX! To convert copy the LUX address and go to the Tools menu and select "Hex Address Converter".

Paste the address and then copy the resulting HEX address that is generated. You can now input this HEX address into the "address _to" field. Below that type in the number of tokens you would like to send.

Finally select the Sender Address at the bottom that corresponds with the address that you received the token(s) and click "Send To Contract" at the bottom right.

You will see the transaction cost +/- 0.1 LUX however this is an overestimation and you will receive change after your transaction is processed. These transactions cost approximately 0.025LUX each.

Be patient it takes a few minutes for the transaction to be accepted!
